Innovative Teaching and Learning

INNOVATIVE
TEACHING

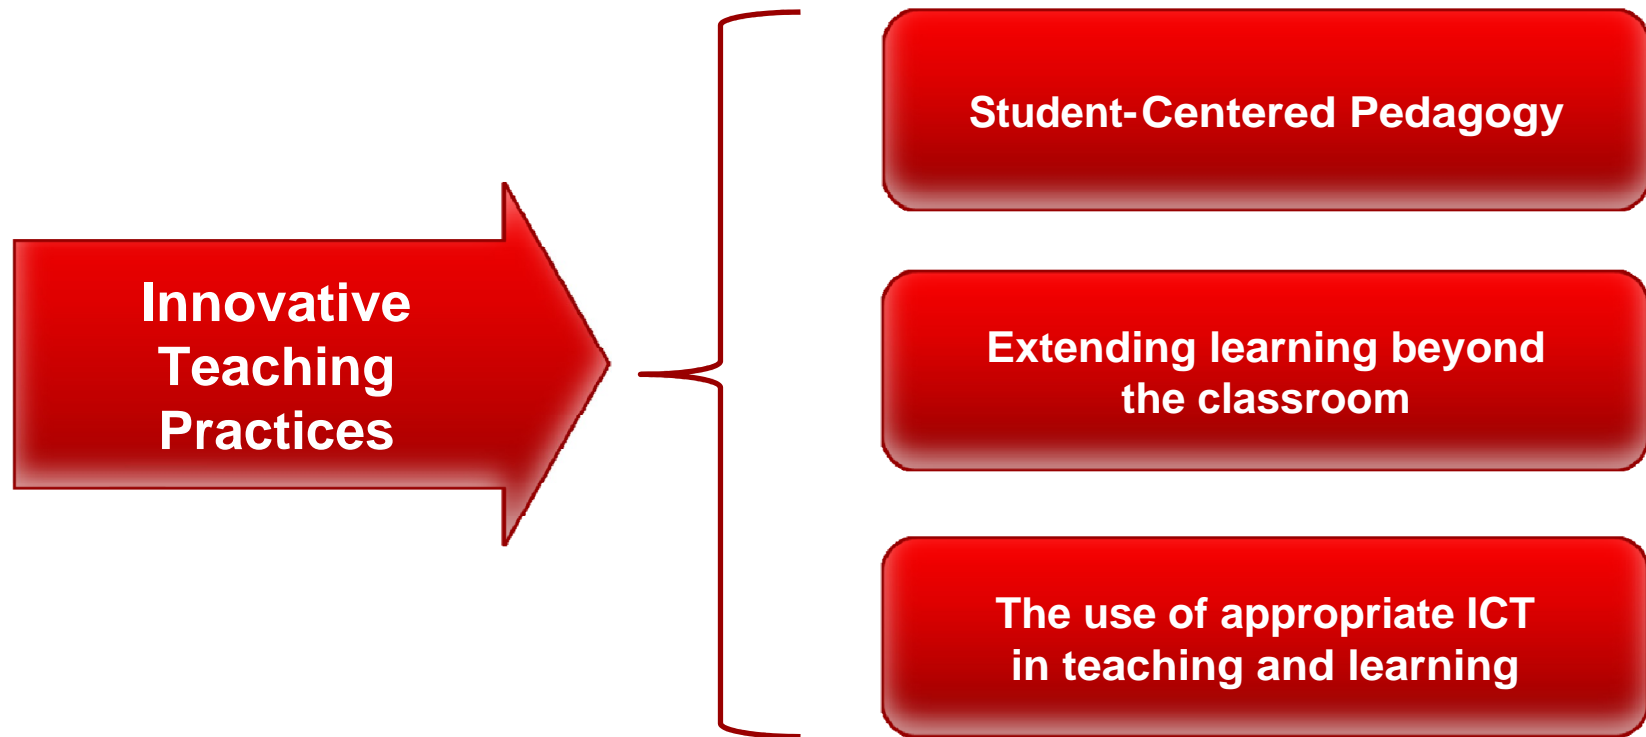

Technology
alone will not
transform
education

Innovative Teaching Practices

Two questions

- Q1: How do we EXTEND educator professional development aligned with UNESCO ICTCFT?
- Q2: Do innovative teaching practices work to develop students' 21C skills?

Q1

Extending UNESCO ICTCST

- Professional Development + Certification
- Cross Sector Partnership to support the deployment of the UNESCO ICTCST
- Goal: Deliver locally relevant educator training & internationally recognized certification at scale.

CO-OPERATION
AND DEVELOPMENT

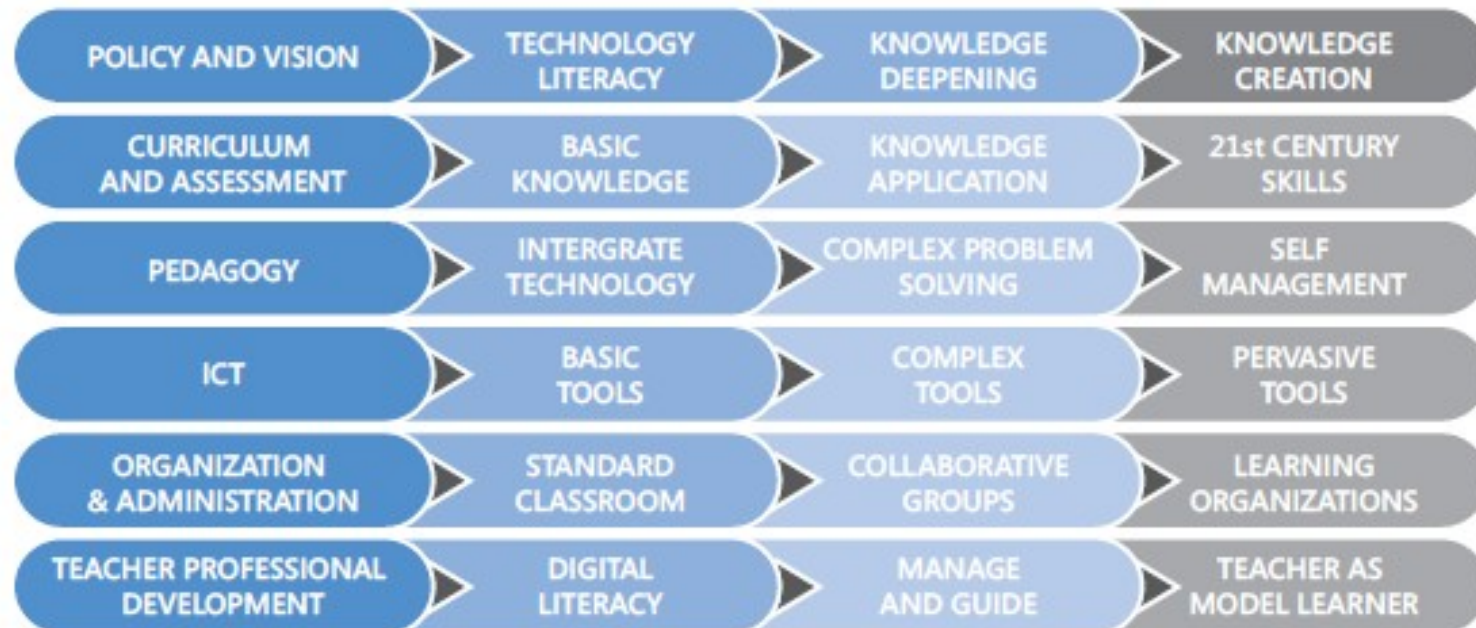

Microsoft

UNESCO ICT Competency Framework for Teachers

Partnering with Education Systems to build capacity

Q2: Does innovative teaching work to develop students' 21C skills?

Innovative Teaching and Learning Research

A multiyear global research program

designed to investigate the factors that promote
the transformation of teaching practices

and the impact those changes have on
students' learning outcomes

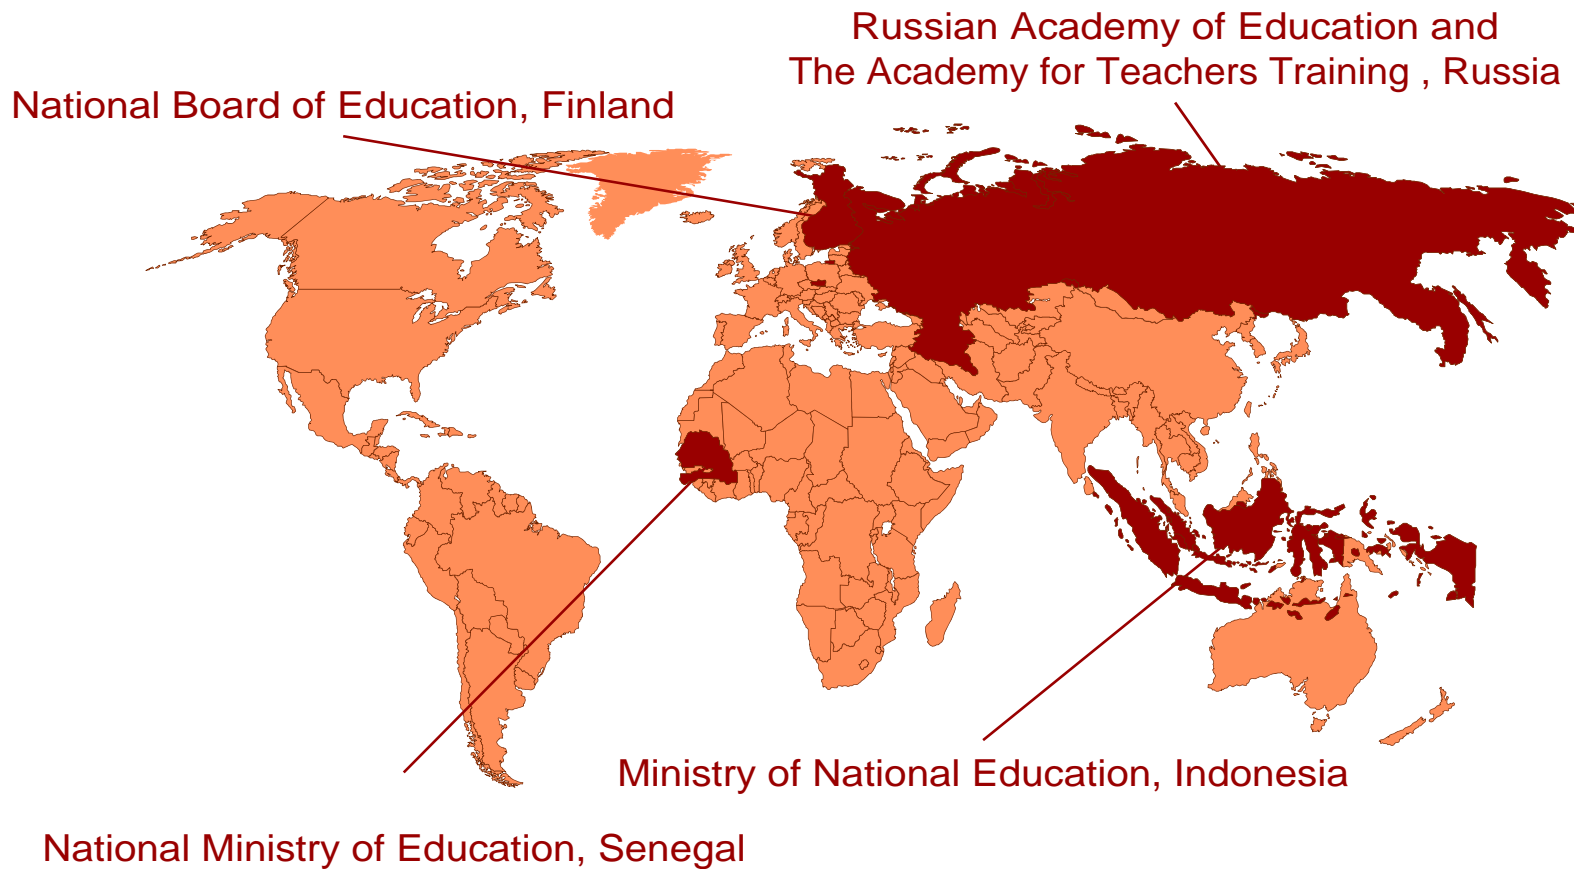

across a broad range of country contexts

ITL Logic Model

Logic Model Measurement Methods

ITLresearch
Innovative Teaching and Learning

Vision of ITL Research

Provide evidence to education policy-makers on

- What works to change teachers' teaching practices
- The impact teacher change has on students' 21C skills

Develop scalable research and monitoring system

- Informed by research and standards (UNESCO CFT)
- That can be used by countries, programs and schools to measure change
- And provide consistent internationally comparable data
